**Instructions:**

- (i) Submit in Turnitin
  - (ii) Use the format below for identifying your submission. You need not include your name.  
Write your details at top of the document as seen here.  
HS8.102-Phil.IHS/Assignment-[#]/[Roll number]/Program  
e.g. HS8.102-Phil.IHS/Assignment-2/20166737/CSE
  - (iii) Your submission must be a single PDF, named with your IIITH id. E.g. 20166737.PDF
  - (iv) Viewing similarity report: **On due date**. Option to resubmit: **Yes**.
  - (v) Similarity index threshold to be considered for evaluation: **15%**
  - (vi) DO NOT include the question in your submission.
- 

**Instead of the original version of the Turing test, suppose we ask a computer to differentiate, after conversation with another computer and a human being, as to which was which. Would a computer passing that test be considered intelligent? What else might we ask a computer to do to demonstrate that it is intelligent?**
